## Introduction

This application note will help guide through the steps of installing the Distech Controls software using Software Center.

The Software Center, is an "intelligent application" that provides a simple and efficient method of installing and updating all Distech Controls applications, wizards and LNS plug-ins. Once installed, the Software Center will automatically verify the state of installed files and prompt you when updated versions are available for download from our website.

Using Software Center is the preferred way of updating all Distech Controls software before. This procedure is mandatory to follow before each training session.

## Information

The total volume of the download is several hundred MegaBytes – please ensure that you have a high-speed internet connection and also sufficient time to complete all downloads before starting.

**Please note that our software will only run on Windows OS (8 or more recent).**

**Thanks to check that all items requested for your project are correctly installed on your computer.**

## Software Center

Last updated: Sep 01, 2022 3 minutes read

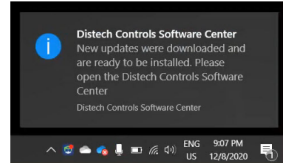

The Distech Controls Software Center is an intelligent desktop application that provides a simple and efficient method of downloading, installing and updating all Distech Controls software applications and firmware files. Once installed, the Software Center runs as a background service on your PC and will automatically verify the state of installed files and notify you when updated versions are available.

[Download Software Center](#)

### Important Notes

1. The new Distech Controls Software Center replaces Smartinstaller. During the Software Center installation process, you are prompted to uninstall Smartinstaller if it is detected on your PC. It is recommended to uninstall Smartinstaller and continue using Software Center.
2. Software Center is supported on Windows 8.1 and Windows 10.

### Software Update Notifications

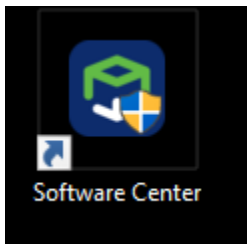

Software Center runs as a background process on your PC and resides in the Windows system tray. Software Center is aware of all Distech Controls software installed and firmware files saved on your PC. When an update is published by Distech Controls to one of these installed software or saved firmware products, a notification appears and is held in the Windows Action Center. Clicking the notification opens the Software Center where you can download and install the update.

Select Download Software Center

Software Center application will be downloaded, and a shortcut will be installed on your desktop.

Software Center is an intelligent application that provides a simple and efficient method of installing and updating all Distech Controls applications, wizards and LNS plug-ins. It is mandatory to check available versions before to start a new project.

## 2. List of items to download

**The software you are going to download will depend on the nature of the training you are registered for:**

- If you are registered for an EC-gfxProgram training course, you will not need to install EC-Net software.
- If you are registered for an EC-Net 4 training course, you will need both EC-gfxProgram and EC-Net 4.

**Nota Bene** : EC-Net software installation should be done in 3 steps following dependencies between items.

1. EC-Net
2. EC-gfxProgram & Support package
3. Productivity enhancing tools and other items.

The software is sorted in different tabs:

### **EC-Net 4 platform tab (only for EC-Net training sessions)**

- EC-Net 4 (*Select the last version available*)
- Distech Controls EC-Net 4 support Pack (*EC-Net only*)
- Distech Controls EC-Net BACnet AWS OWS Support Pack (*EC-Net only*)
- Productivity enhancing tools
- Distech Controls ENVYSION for EC-Net

### **EC-gfxProgram tab**

- Distech Controls EC-gfx Program
- Distech Controls XPressgfx Points (*Excel 2010 minimum*)

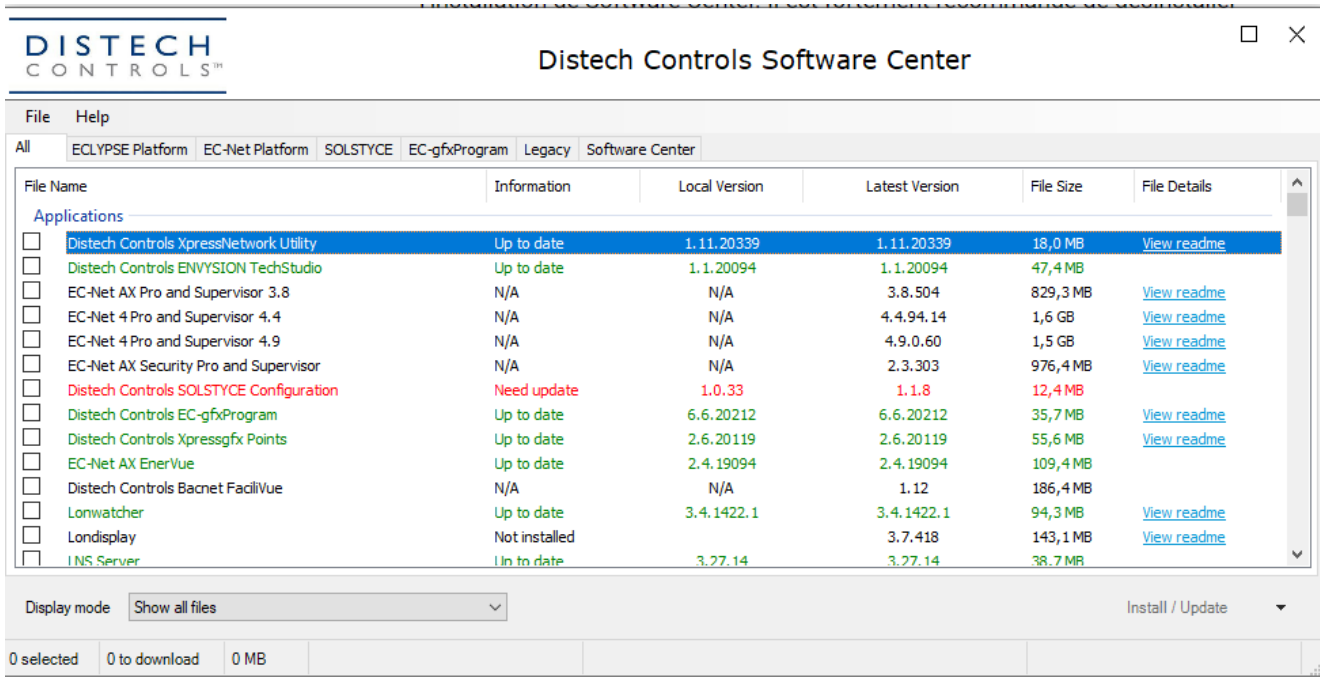

### **ECLYPSE Platform tab**

- Distech Controls XpressNetwork Utility
- Distech Controls ECY Server
- Distech Controls Central Plant Experience Box

### **ENVYSION tab**

- Distech Controls dcLibrary
- Distech Controls ENVYSION

### 3. Launch Software Center

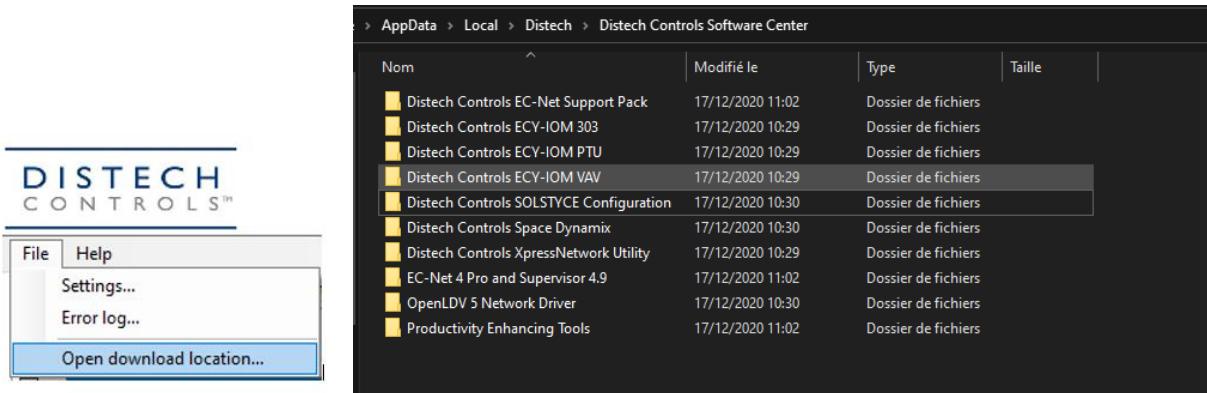

All download cannot be executed simultaneously for installation reason. Respect the orders.

All downloaded items will be saved under path:

C:\Users\Name\AppData\Local\Distech\Distech Controls Software Center (et peuvent être copiés pour une installation ultérieure)

This path is directly reachable using File/Open Download Location

## 4. Download EC-Net 4 software

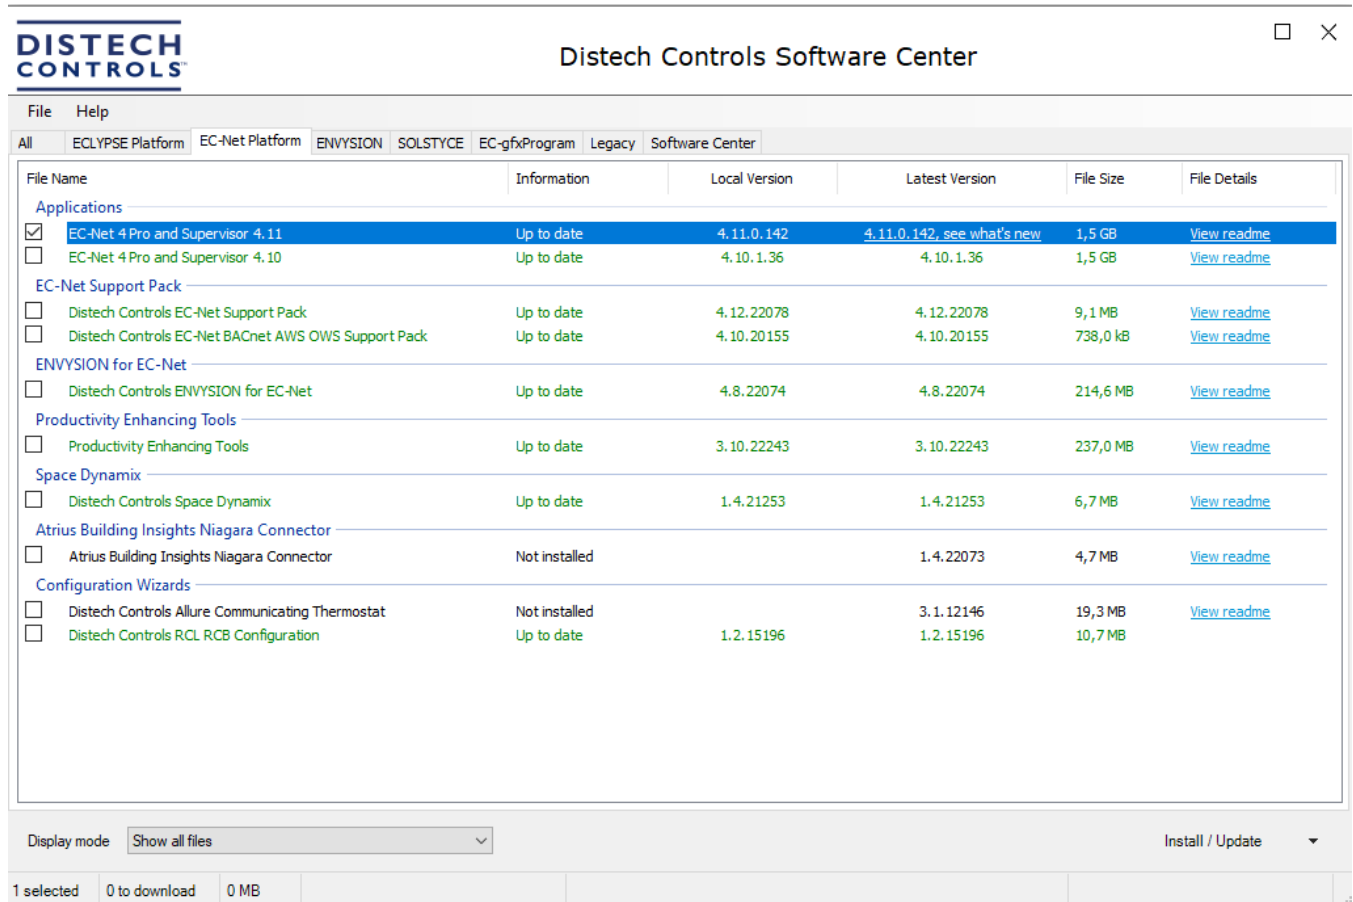

On the next window, click on the tab 'EC-Net Platform'

Then select the following line:

- EC-Net 4 Pro and supervisor (Last available version)

Download and install the software by clicking Next and accept the terms.

Note: this download is several hundred MB and will take 30 minutes or more on an ADSL connection

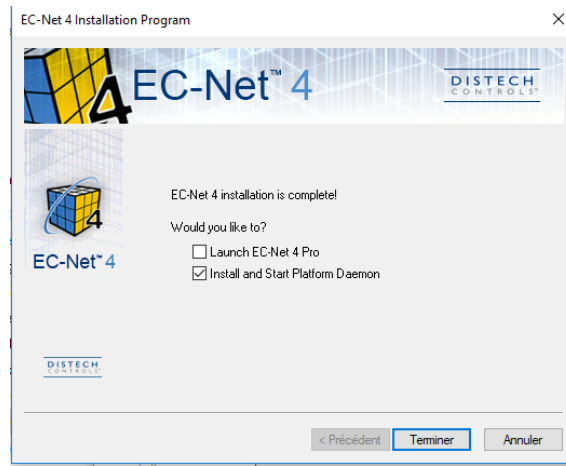

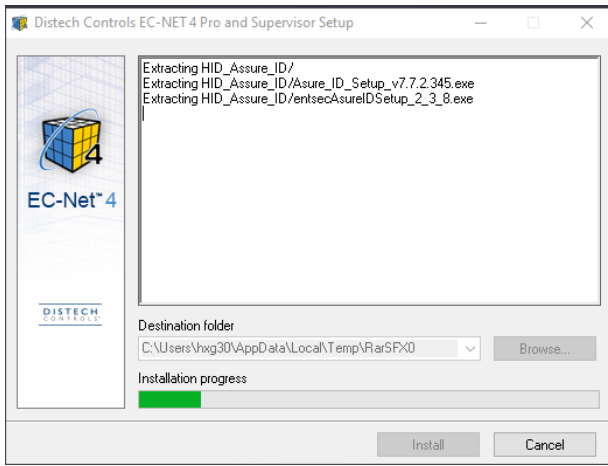

The screenshot shows the Distech Controls Software Center interface. The 'EC-Net Platform' tab is selected. The main content area displays a table of software files with columns for File Name, Information, Local Version, Latest Version, File Size, and File Details. The 'EC-Net 4 Pro and Supervisor 4.11' file is selected.

At the bottom of the interface, there is a 'Display mode' dropdown set to 'Show all files', an 'Install / Update' button, and a status bar showing '1 selected', '0 to download', and '0 MB'.

NB : older versions are available under Legacy tab.

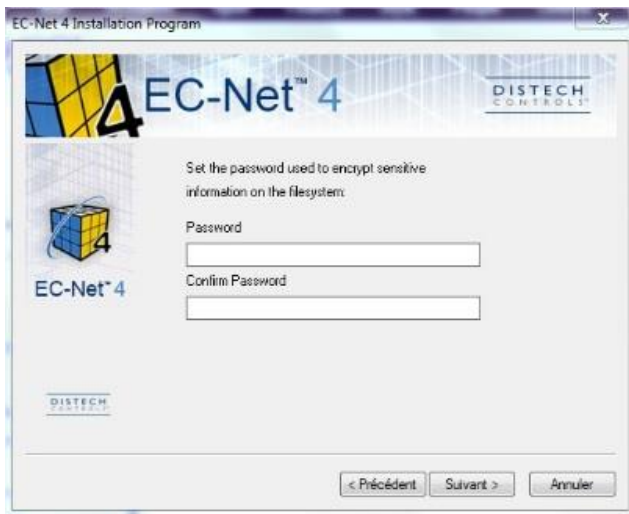

Click "Next" and follow the installation procedure by clicking "Next".

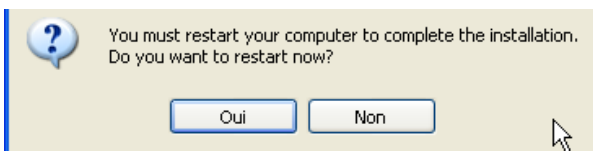

**Nota Bene :**

When you install EC-Net 4 the first time, system asks you for a **Passphrase**. This **Passphrase** will be used to protect your futures stations.

**Don't forget it.** And create a rule on your team to use the same passphrase to avoid future trouble.

Select "No" to avoid Restarting your computer

## ➤ Restart the computer and request a license

**Note : EC-Net software is licensed. This license is linked to the windows environnement. L'utilisation du logiciel EC-Net est soumise à licence liée à l'environnement windows. If EC-Net is not a part of your training program, it is not necessary to request a license.**

Once installation is done, restart Software Center :

Launch EC-Net 4, this one will check the license availability.

Your computer displays the Host ID : : « **Win-XXXX-XXXX-XXXX-XXXX** »

Send your request to [salesadmin@distech-controls.com](mailto:salesadmin@distech-controls.com) with the email subject : "temporary license for training"

Thanks to perform a copy/paste of Host ID and avoid any screen capture.

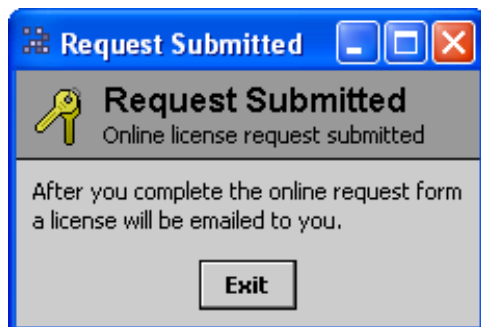

**Nota Bene : Don't forget to join the Purchase Order linked to the training. If training was not ordered with a Purchase Order, you will should generate one for the license.**

This license "Win" is linked to your computer and is valid until next 31<sup>st</sup> of January.

The screenshot shows a web browser window titled "Register a license - Windows Internet Explorer". The page is for "License Registration" and includes the Niagara Central logo. It contains instructions and a form with the following fields:

- Section 1: Hardware information. The "Host ID" field contains "Win-EC3F-317E-FD8E-A3F5". The "License Key" field is empty.
- Section 2: Registration information. Fields for "Name\*", "Company\*", and "Email\*" are present.
- A "Request License" button is at the bottom.

An email will be sent to you with the attached license in a \*.zip file.

Once you received email, restart EC-Net 4.

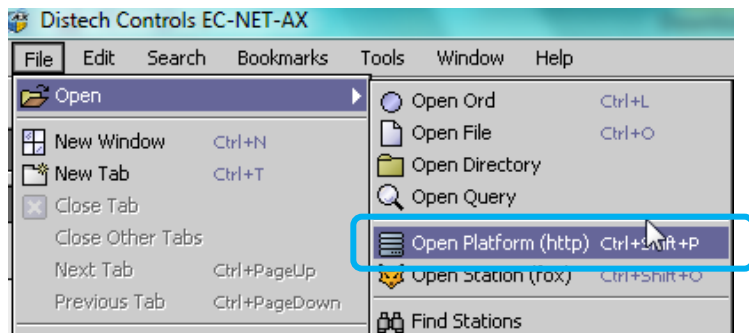

If your computer is connected to internet, the license will be automatically downloaded.

If you don't have internet connexion, install the license under C:\Niagara\EC-Net »version »\security\licenses.

## ➤ Check you administrator rights

Start the EC-Net 4 software and try to open the platform of your computer.

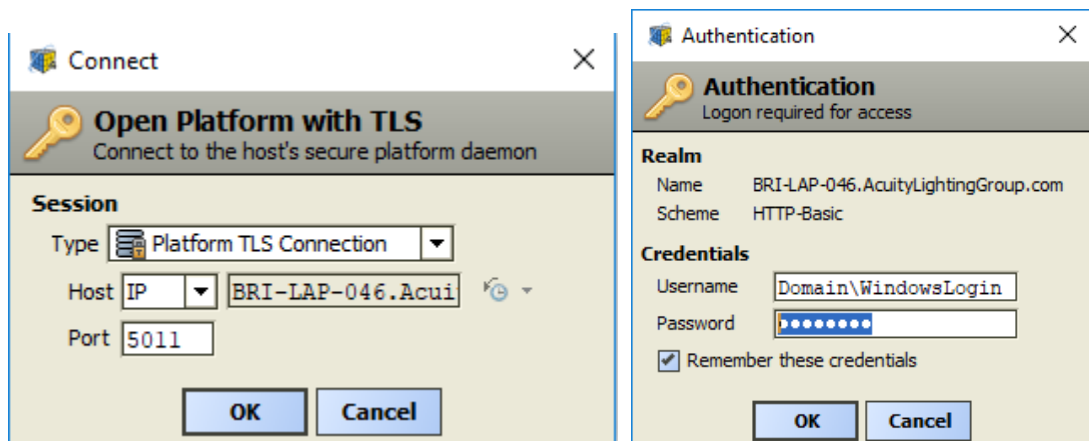

Menu File/Open/Open Platform

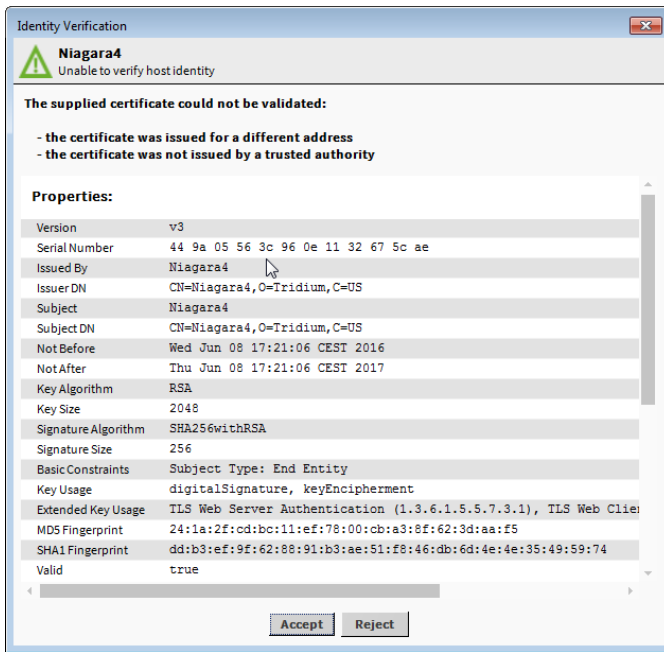

Enter 'localhost' as IP address and enter your username and password.

They are the same as you use to connect to your windows session.

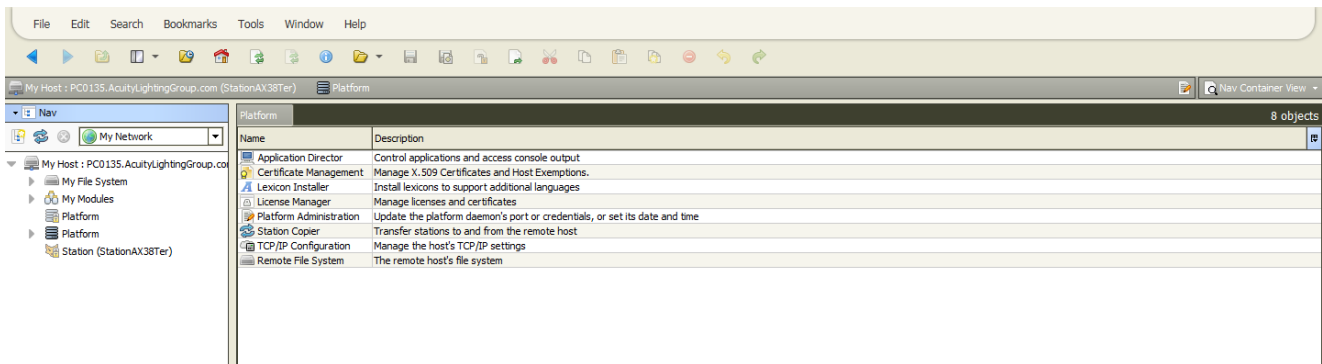

It could be mandatory to precise your Domain as defined on user (Domain\User)

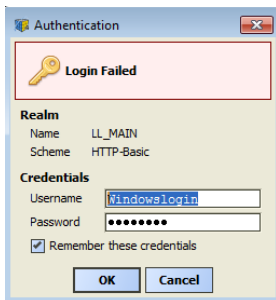

Accept certificate if you use secured connexion (TLS)

If you have administrator rights, you will access to this view

If you don't have administrator rights, a login failed message appears.

Contact your I&T department to obtain a login/password with administrator rights

**Nota Bene : if it doesn't work, create a new user in local with administrator rights.**

## 5. Download Support Package (EC-Net only)

Under Software Center, select EC-Net platform tab and check the following items ;

- Distech Controls EC-Net Support Pack
- Distech Controls EC-Net BACnet AWS OWS Support Pack

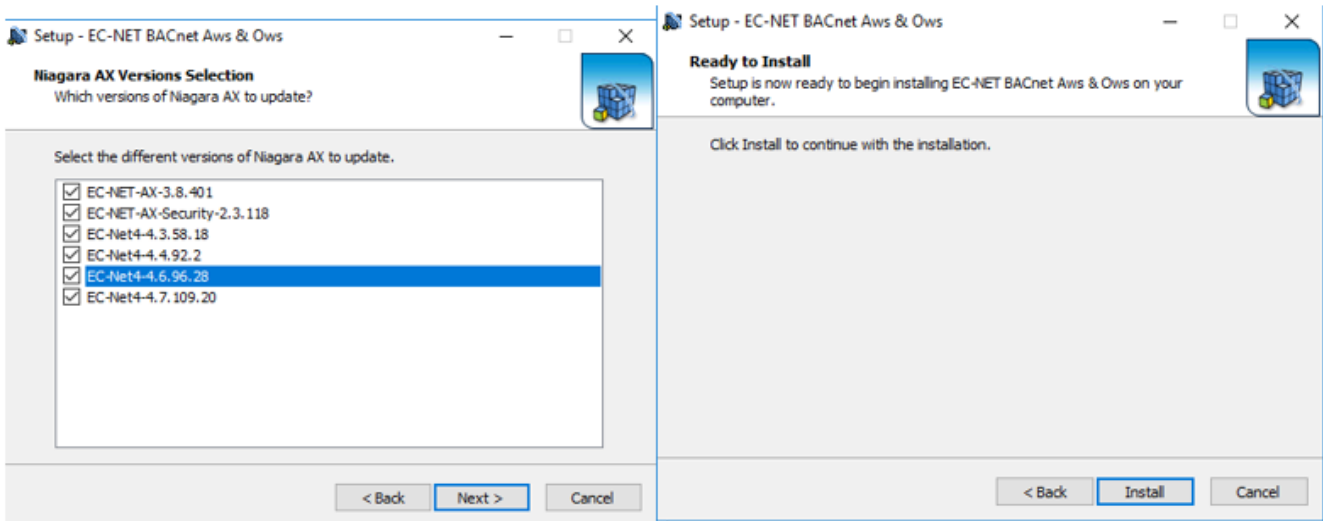

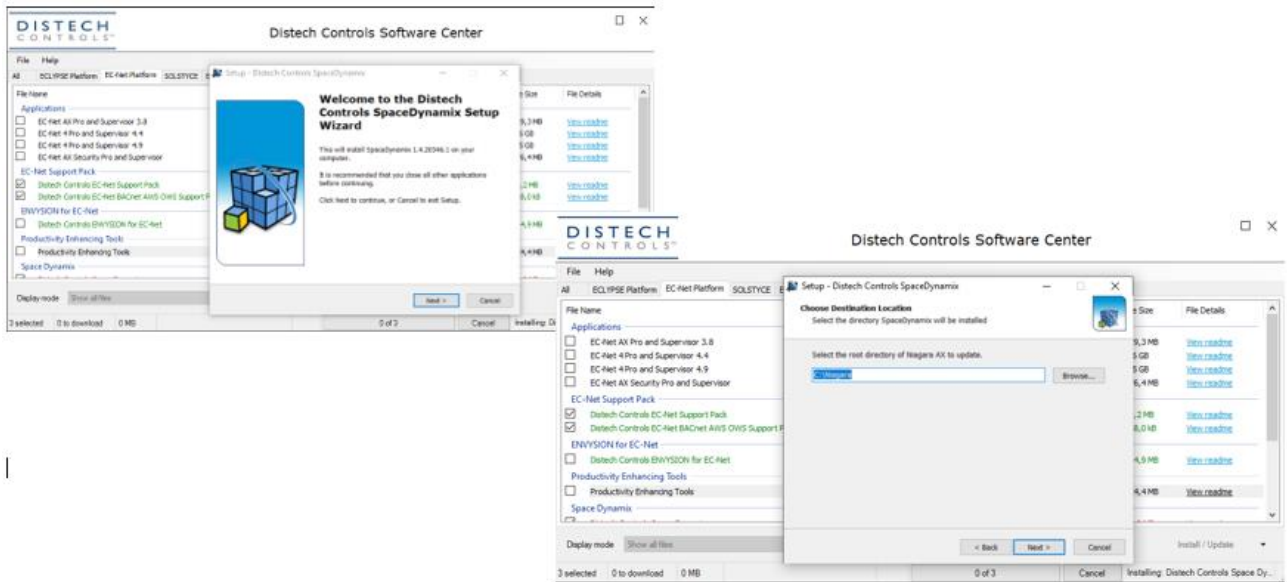

The screenshot shows the 'Distech Controls Software Center' window. The 'EC-Net Platform' tab is selected. A table lists various software packages with columns for File Name, Information, Local Version, Latest Version, File Size, and File Details. Two packages are checked: 'Distech Controls EC-Net Support Pack' and 'Distech Controls EC-Net BACnet AWS OWS Support Pack'.

File Name	Information	Local Version	Latest Version	File Size	File Details
<b>Applications</b>					
<input checked="" type="checkbox"/> EC-Net 4 Pro and Supervisor 4.11	Up to date	4.11.0.142	<a href="#">4.11.0.142, see what's new</a>	1,5 GB	<a href="#">View readme</a>

It is not necessary to restart your computer even if this message appears.

## 7. Download Productivity Enhancing Tools

Productivity Enhancing Tools installs ;

- gfxApplications version X.X (library gfx)
- dcgfxApplications version X.X (templates EC-Net)
- ENVYSION projects version X.X
- BIM Files version X.X

ENVYSION and BIM files are installed under MyDocuments/Distech Controls/

- This item can be installed only after EC-gfxProgram installation

The screenshot shows the 'Distech Controls Software Center' window. It features a menu bar with 'File' and 'Help', and a navigation bar with tabs for 'All', 'ECLYPSE Platform', 'EC-Net Platform', 'SOLSTYCE', 'EC-gfxProgram', 'Legacy', and 'Software Center'. The main area displays a table of software components with columns for 'File Name', 'Information', 'Local Version', 'Latest Version', 'File Size', and 'File Details'. The 'Productivity Enhancing Tools' component is highlighted in blue and has a checked checkbox. Below the table, there is a 'Display mode' dropdown set to 'Show all files' and an 'Install / Update' button. At the bottom, it shows '6 selected', '0 to download', and '0 MB'.
