

KE2 Therm Solutions Named Winner in ACHR NEWS 2024 Dealer Design Awards

[Washington, MO, July 29, 2024] - KE2 Therm Solutions (KE2 Therm) was recognized for excellence in product design in the 2024 Dealer Design Awards Program, sponsored by The Air Conditioning, Heating & Refrigeration News magazine. An independent panel of contractors acted as judges in the contest. The KE2 Condensing Unit Control was the silver winner in the Commercial Controls category. The ACHR NEWS is the leading trade magazine in the heating, ventilating, air conditioning, and refrigeration industries.

Sarah Harding, publisher, The NEWS, stated, "These awards give us a unique opportunity to recognize the outstanding research and development efforts that go into many of the products serving the HVACR industry and the awards issue gives our readers an opportunity to read about innovative installation and service solutions."

"We are extremely pleased and honored to receive another Dealer Design Award with a Silver in the Commercial Controls category this year. These Dealer Design Awards are extra special because they are determined by a panel of dealers/contractors, people who use the products in their daily work. We incorporated a lot of their input into the design of our Condensing Unit Controller. We are inspired by their vote of confidence, and plan to continue bringing advanced solutions to the commercial refrigeration industry that among other benefits, help make the service technician's tasks easier and more efficient." Patrick Holdmeyer, Vice President & General Manager KE2 Therm.

Winning entries in the Dealer Design Awards were featured in the July 29, 2024, issue of The ACHR NEWS, which is distributed nationally to over 27,000 HVACR contractors, wholesalers and distributors, and other industry professionals.
