

Distech Controls receives EcoVadis Bronze medal for the 3rd consecutive year

[Brignais, France, 10 March 2026] – Distech Controls, a leader in intelligent building solutions, announces that its France operations received a Bronze Medal from EcoVadis, a global leader in business sustainability assessments, for the third consecutive year. By receiving the Bronze Medal, Distech Controls ranks in the **top 35%** of companies assessed by EcoVadis.

Positioned at the intersection of sustainability and technology, Distech Controls leverages technological innovation to help shape smarter, safer, and greener spaces. After announcing ISO 14001:2015 certification for its headquarters in Quebec, Canada, Distech Controls reports that it has earned the EcoVadis Bronze Medal for the third consecutive year, achieving an overall score of 68. This result highlights Distech Controls' efforts to maintain transparency and responsible practices throughout its value chain and supports trust with customers, partners, and stakeholders.

The EcoVadis medal reflects Acuity's EarthLIGHT efforts (Distech Controls is a brand of Acuity Inc.), which aim to reach Net Zero emissions by 2040 and enable 100 million metric tons of greenhouse gas (GHG) avoidance by fiscal 2030. The medal reflects an evaluation of Distech Controls conducted by EcoVadis in accordance with globally recognized corporate responsibility standards.

*"We are very pleased to once again receive the EcoVadis medal," said **Martin Villeneuve, President of Distech Controls**. "This recognition acknowledges the ongoing efforts of Distech Controls teams to incorporate responsible practices across our activities and reflects the work of our teams—across all departments—to integrate sustainability considerations into our culture, decisions, and processes."*

The EcoVadis assessment evaluates 21 sustainability criteria across four core themes: Environment, Labor & Human Rights, Ethics, and Sustainable Procurement. More than 130,000 companies globally have been rated by EcoVadis. Their business sustainability ratings are based on international sustainability standards such as the Ten Principles of the UN Global Compact, the International Labour Organization (ILO) conventions, the Global Reporting Initiative (GRI) standards, and the ISO 26000 standard. The ratings provide an evidence-based analysis on performance and an actionable roadmap for continuous improvement.
