

Distech Controls Unveils Innovative Solutions at PropTech Connect 2025

Distech Controls™ is a bronze sponsor and speaker at PropTech Connect, Europe's largest real estate tech event, taking place at InterContinental London, The O2, on 3-4 September 2025.

[Lyon, France, 28 August 2025] – Distech Controls™ Inc., an innovative leader in intelligent buildings, is pleased to announce its participation as a Bronze Sponsor and exhibitor at PropTech Connect 2025, which takes place from 3rd-4th September at InterContinental London, The O2.

“Distech Controls is eager to engage with leading industry experts and professionals in the PropTech sector, showcasing its innovative data-sharing and energy-efficient solutions to the UK market” states Simon Ward, Director of Sales for UK & Ireland at Distech Controls. “As a bronze sponsor of the PropTech Connect event and part of the speaker programme, Distech Controls is looking forward to championing how its innovative solutions can enhance occupant experience, building value and supporting businesses in meeting ambitious energy and technology objectives set.”

Distech Controls will be demonstrating how its intelligent solutions deliver on the increasing importance for PropTech businesses to provide energy efficient, sustainable and human-centric buildings. With buildings required to meet increasingly high expectations from building owners and tenants, Distech Controls provides products that are functional, easy to use and adaptable for the future which place occupants at the centre of buildings. Additionally, as areas become more progressive and set ambitious energy and technology targets, gaining certifications for energy efficiency and sustainability is increasingly important. By installing Distech Controls, building owners are better able to optimise energy usage and related emissions whilst enhancing the overall value of their portfolios.

At the show, Distech Controls will showcase its latest technologies designed to deliver comprehensive edge-with-cloud solutions, making buildings smarter, safer, and greener. These technologies reflect Distech Controls' commitment to providing seamless, well-integrated solutions that enhance deployment, operations, and occupant experiences.

Distech Controls' portfolio spans controllers, sensors, software, and refrigeration solutions, all designed to work together and with existing systems. The flagship Eclipse line of controllers, the industry's first IP-based controllers, paved the way for connectivity in building automation. Resense sensors and displays deliver actionable insights to enhance comfort, optimize space utilization, and improve occupant engagement. Eclipse Facilities, the brand's building automation OS & software, powers all Distech Controls Eclipse Devices and Resense Move to control, connect, and monitor equipment and spaces, while KE2 Therm refrigeration controls provide smarter, more sustainable management of one of the largest energy drivers in commercial buildings. Together, these innovations demonstrate Distech Controls' commitment to delivering integrated, future-ready solutions that reimagine the possibilities for intelligence and connectivity within the built environment.

On the first day of the event, Simon Ward, Director of Sales for UK & Ireland at Distech Controls, will be live at 11:00am on the Innovation Stage, introducing Distech Controls and its solutions, contributing to an informative speaking session on 'Solutions for Planning & Development'.

On the second day of the event, Lauren Scott, Vice President of Marketing and Sustainability at Acuity Intelligent Spaces will be representing Distech Controls on the 'Sustainable Design and Construction for a greener Future' panel, taking place at 11:30am.
