

Distech Controls Showcases Expertise in Smart Building Technology and IAQ at Smart Buildings Show

Distech Controls™ is a Gold Sponsor of this year's Smart Buildings Show, presenting its latest innovations and participating in expert panels at ExCeL London on 15–16 October 2025.

[Lyon, France, 6 October 2025] – Distech Controls, an innovative leader in intelligent buildings, will be showcasing its comprehensive suite of Building Management System (BMS) sensors, interfaces, and controller products at stand **B10**. Designed with flexibility and scalability in mind, Distech Controls' products work seamlessly together to meet the unique needs of buildings of all sizes, from small sites such as a school with a boiler room to multi-site facilities. Distech Controls offers a unified, adaptable solution that ensures optimal performance, energy efficiency and occupant comfort making buildings smarter, safer, and greener.

"We're excited to be back at the Smart Buildings Show," says Simon Ward, Director Sales UK & Ireland at Distech Controls. "It's a great chance to connect with partners, meet new people, and showcase why Distech Controls is the ideal choice for smarter, safer, greener buildings. This year we're also celebrating 30 years of building innovative solutions. We can't wait to welcome everyone to Stand B10."

Panel and Speaking Sessions

Beyond visiting booth B10, Smart Building visitors are invited to hear more from Distech Controls experts as part of the event programming:

- Simon Ward (Director Sales UK & Ireland at Distech Controls) – Using Building Automation to improve Indoor Air Quality (Wednesday, 15 October, 11:45 am, Controls & Networks Theatre)
- Chris Vintinner (Senior Product Management at Distech Controls) – Cybersecurity panel with Google (date and room TBC).

Product Solutions on Display

Sensors & Interfaces

- Resense™ Move, a cutting-edge 7-in-1 sensor, includes AI-powered people counting solution designed to enhance indoor environmental quality, improve energy efficiency, and decrease operating costs. Visitors to the Stand B10 will have the chance to interact with a live demo of the product.
- Resense Air series, which features a contemporary design to blend seamlessly with its surroundings. Available in black and white, it has capacitive buttons and raises the bar for all future sensors and interfaces.

Controllers & Displays

The Eclipse™ range, including the powerful Eclipse APEX and the new Eclipse Display platform, delivers flexibility, performance, and secure connectivity.

Key features across the Eclipse controller portfolio:

- Software-configurable inputs and outputs.
- Flexible mounting for tight or unique spaces.
- IoT-ready architecture, powered by Eclipse Facilities and Atrius Facilities software.
- Built-in support for BACnet MS/TP and Modbus.
- On-device displays for ECY-300 and ECY-203, providing direct and secure data access.

BMS Software Suite

- Eclipse™ Facilities: the AHR Expo Innovation Award-Winning Building Automation OS & Software, that powers all Distech Controls Eclipse Devices and Resense Move to control, connect, and monitor equipment and spaces.
- Atrius Facilities: a cloud-based BMS software solution designed to enhance building operations and reduce energy usage. The Organize module allows system integrators to remotely set up, maintain, and access Eclipse controllers using either the mobile application or web browser interface.
- EC-Net Facilities: A software solution leveraging the Niagara framework both at the building controller and server level that specialises in advanced management and visualisation of building devices across small to large portfolios.

DC Space

DC Space brings in a new era of building innovation, where the seamless convergence of technology fosters energy efficiency, creates intelligent spaces and enhances occupant experience. DC Space effectively controls HVAC systems, lighting, and sunblinds, while also providing personalised comfort solutions for occupants.

About Distech Controls

Distech Controls connects people with intelligent building solutions through our disruptive Building Management Systems (BMS) and refrigeration controls, sensors, and software. For over 30 years, our open technology has made spaces smarter, safer and greener by focusing on end user outcomes. Distech Controls is part of Acuity. Visit us at www.distech-controls.com.

About Acuity Inc.

Acuity Inc. (NYSE: AYI) is a market-leading industrial technology company. We use technology to solve problems in spaces, light and more things to come. Through our two business segments, Acuity Brands Lighting (ABL) and Acuity Intelligent Spaces (AIS), we design, manufacture, and bring to market products and services that make a valuable difference in people's lives.

We achieve growth through the development of innovative new products and services, including lighting, lighting controls, building management solutions, and an audio, video and control platform. We focus on customer outcomes and drive growth and productivity to increase market share and deliver superior returns. We look to aggressively deploy capital to grow the business and to enter attractive new verticals.

Acuity Inc. is based in Atlanta, Georgia, with operations across North America, Europe and Asia. The Company is powered by approximately 13,000 dedicated and talented associates. Visit us at www.acuityinc.com.
