Acuity Showcases the Future of Commercial Real Estate at IBcon 2025

[Atlanta, Georgia, United States, May 30, 2025] – Acuity Intelligent Spaces (AIS), a business segment of Acuity, is excited to announce its participation at IBcon 2025 where it will showcase smarter, safer, and greener spaces through connecting the edge with the cloud using disruptive technologies that leverage data interoperability. AIS will be presenting the latest advancements from two of its brands – Atrius™, with its data platform and industry leading cloud applications for building performance and spatial intelligence, and Distech Controls™, a leader in disruptive Building Management System (BMS) and refrigeration solutions – at **Booth 1107** during the event, which takes place at the Savannah Convention Center, Georgia from June 3-4, 2025.

“We are looking forward to being back at IBcon, particularly with this edition’s focus on transformative technology,” comments Ryan Sen, VP of Business Development at Distech Controls. “Edge with cloud capabilities of Atrius and Distech Controls enable commercial real estate professionals to transform ordinary properties into agile, performance-driven spaces that drive tenant satisfaction, operational efficiency, and long-term value. We can’t wait to welcome everyone to Booth 1107 and show them what Atrius and Distech Controls, as part of Acuity, can do to enhance their facilities.”

Key Products on Display at IBcon

- **Resense™ Move**, a cutting-edge 7-in-1 sensor, includes AI-powered people counting solution designed to enhance indoor air quality, improve energy efficiency, and decrease operating costs. Recipient of the [IBCon Digie Award](#) in 2024.
- **Resense Air series**, which features a contemporary design to blend seamlessly with its surroundings.
- **BMS Software Suite:**
 - **Eclipse™ Facilities**, the [AHR Expo Innovation Award-Winning](#) Building Automation OS & Software, that powers all Distech Controls Eclipse Devices and Resense Move to control, connect, and monitor equipment and spaces.
 - **Atrius Facilities**, a cloud-based BMS software solution designed to enhance building operations and reduce energy usage. The Organize module allows system integrators to remotely set up, maintain, and access Eclipse controllers using either the mobile application or web browser interface.
- **Atrius DataLab**, an independent data platform that helps bring clarity and alignment between all building systems and equipment. Atrius DataLab has also been shortlisted in the Best AI Tech Innovation Intelligent Buildings category at the upcoming [2025 IBCon Digie Awards](#). The award ceremony will be held on Tuesday, June 3 at 5:45pm at the Realcomm Live stage.
- **Eclipse Display**, a next-generation, IP-based touchscreen display that allows system integrators and facility managers to access, view, and engage with operating parameters of a building or a system for simplified commissioning, operations and troubleshooting.

About Atrius

Atrius believes in harnessing the value of data within a space by making data accessible, usable, and actionable. Our data platform and industry-leading cloud applications for building performance and spatial intelligence maximize occupant experiences and transform spaces for smarter, safer and greener outcomes. Visit us at www.atrius.com.

About Distech Controls

Distech Controls connects people with intelligent building solutions through our disruptive Building Management Systems (BMS) and refrigeration controls, sensors, and software. For over 30 years, our open technology has made spaces smarter, safer and greener by focusing on end user outcomes. Visit us at www.distech-controls.com.

Atrius, Distech Controls and QSC are part of the Acuity Intelligent Spaces business segment. Our mission is to make spaces smarter, safer and greener through our strategy of connecting the edge with the cloud using disruptive technologies that leverage data interoperability.

About Acuity Inc.

Acuity Inc. (NYSE: AYI) is a market-leading industrial technology company. We use technology to solve problems in spaces, light and more things to come. Through our two business segments, Acuity Brands Lighting (ABL) and

Press Release

Acuity Intelligent Spaces (AIS), we design, manufacture, and bring to market products and services that make a valuable difference in people's lives.

We achieve growth through the development of innovative new products and services, including lighting, lighting controls, building management solutions, and an audio, video and control platform. We focus on customer outcomes and drive growth and productivity to increase market share and deliver superior returns. We look to aggressively deploy capital to grow the business and to enter attractive new verticals.

Acuity Inc. is based in Atlanta, Georgia, with operations across North America, Europe and Asia. The Company is powered by approximately 13,000 dedicated and talented associates. Visit us at www.acuityinc.com.
