

Distech Controls Goes Big at IBcon

[Brossard, Canada, June 3, 2024] – Distech Controls™, an innovation leader connecting people with intelligent building solutions, is excited to announce its participation at IBcon 2024, the leading smart, connected, high performance, intelligent buildings conference. Set to take place from June 20-21, 2024, at the Tampa Convention center in Florida, IBcon gathers industry leaders, innovators, and enthusiasts under one roof to explore the latest trends and advancements shaping the real estate technology market.

During this year's show, at booth 2002, Distech Controls will be demonstrating the innovative capabilities of the new Resense Move AI connected multi-sensor. Visitors to the booth will also have the opportunity to learn more about solutions from [Atrius](#), which is part of Acuity Brands' [Intelligent Spaces Group](#) (ISG) alongside Distech Controls.

"We are thrilled to be a part of IBcon once again," comments Martin Villeneuve, President of Distech Controls. "This event provides us with a fantastic platform to showcase our newest innovations and connect with industry peers, partners, and potential clients. We look forward to engaging discussions, valuable networking opportunities, and the chance to demonstrate how Distech Controls is shaping the future of the industry."

Distech Controls is also part of the conference program at IBcon 2024:

- Ryan Sen, Vice President, International Sales at Distech Controls, will be presenting a talk on Thursday, June 20 at 1:15pm entitled "The Future of Building Data Architecture: Evaluating IDL Solutions. The presentation is part of the IBcon: Smarter Buildings – Data / AI track. Ryan will also be part of the IBcon Smart Building Integrator Summit (SBIS), which takes place on Wednesday, June 19 from 12:30 – 3:30pm in Room 303. He will be speaking on a panel at 12:35pm focusing on Smart Small/Medium Building Owners.
- Charles Pelletier, Vice President, Product Management at Distech Controls, will also be presenting a session on Thursday called "Real World Transformation of Smart Building Operations with Artificial Intelligence" at 5pm. This presentation will focus on AI's evolution in shaping future real estate into spaces that excel in efficiency and sustainability and are customized for every occupant's needs and is also part of the IBcon: Smarter Buildings – Data / AI track.

Smarter, safer and greener buildings

The mission of Acuity Brands' Intelligent Spaces business is to make buildings smarter, safer and greener through its strategy of connecting the edge to the cloud. Distech Controls has the best edge HVAC and refrigeration control devices on the market, while Atrius' cloud applications focus on extracting value from building data faster and easier, including sustainability reporting, energy management, indoor wayfinding, and real-time asset tracking.

Press Release

The demands of customers and buildings are rapidly evolving, driving momentum towards the creation of optimized and autonomous spaces. Whether customers start from a controls-first approach or from cloud applications, the ISG portfolio of software, sensors and controls help them lower their operational costs and reduce their carbon footprint.

Innovative solutions for smarter, safer and greener buildings: introducing Resense Move and Atrius Facilities

- **Resense Move** is a cutting-edge, AI-powered people-counting solution designed to enhance indoor environmental quality, decrease operating costs, and offer real-time data for informed decisions. By monitoring occupancy levels, this sensor can pro-actively adjust airflow, improving air quality while conserving energy. With additional sensing capabilities, Resense Move offers a comprehensive approach to creating healthier, more efficient buildings.
Resense Move has also been shortlisted for a prestigious Digie Award in the Best AI Tech Innovation – Intelligent Buildings category. The awards have been running since 1999 to recognize outstanding companies, real estate projects and technologies as well as the people who have gone “above and beyond” to positively impact the industry. The winners will be announced during IBcon on Wednesday, June 20 at 6pm.
- **Atrius Facilities** is a cloud-based building management platform that unifies access installation and maintenance systems. Reducing the burden of managing building data enables teams to increase operational efficiency of their spaces.

About Distech Controls

Distech Controls connects people with intelligent building solutions through our forward-thinking technologies and services. It partners with customers to deliver innovative solutions that can provide better health, better spaces, and better efficiencies. Its passion for innovation, quality and sustainability guides its business, which serves multiple market segments through worldwide business divisions, service offices and a superior network of Authorized System Integrators and Distributors. Distech Controls is a subsidiary of Acuity Brands, Inc.
